INTERLOCAL COOPERATION AGREEMENT BETWEEN THE KING COUNTY FLOOD CONTROL ZONE DISTRICT AND THE CITY OF REDMOND FOR OPPORTUNITY FUND PROJECTS

THIS INTERLOCAL COOPERATION AGREEMENT is entered into between the CITY OF REDMOND a municipal corporation of the State of Washington (City) and the KING COUNTY FLOOD CONTROL ZONE DISTRICT a quasi municipal corporation of the State of Washington (District) ('Parties" or when singular "Party") and shall be effective upon execution by the Municipality and the District

Article I Recitals

In April 2007, the King County Council as authorized by chapter 86-15 RCW created the District as a quasi-municipal corporation. The King County Council members ex officio constitute the Board of Supervisors of the District, the governing body of the District.

In Resolution FCZD 2008-15 2 the Board of Supervisors approved the District's 2009 budget and annual work program and allocated 10 percent of the District's annual property tax revenues for a sub-regional opportunity fund to be used by King County municipalities. The Board of Supervisors further determined that eligibility of projects for opportunity funds be based on consistency with chapter 86-15 RCW provided that expenditures under RCW 86-15-035 and RCW 39-34-190 for salmonid habitat protection be linked to the construction of a flood or stormwater project. The Board of Supervisors also allocated the opportunity funds to a municipality based on that municipality's proportional contribution to the overall King County assessed valuation, as collected

In Resolution FCZD 2009-01 1 the Board of Supervisors included the projects and activities described in Attachment A to this Agreement in an amendment to the District's annual budget and work program for the year 2009

The Board of Supervisors desires to have the City implement its approved opportunity fund projects and activities for the years 2008 and 2009 as well as the projects and activities that are approved for the City in subsequent District annual budgets and work programs. The City desires to implement such projects and activities and to receive opportunity funds to fin ince in whole or in part such projects and activities.

The City and the District are authorized to enter into this Agreement pursuant to Chapter 39 34 RCW (the Interlocal Cooperation Act) and agree as follows

Article II Definitions

- 2.1 Eligibility Criteria The term "Eligibility Criteria means one of the two following criteria that Projects shall meet to qualify for Opportunity Funds
- 2 1 1 Under RCW 86 15 110 Opportunity Funds may be expended for either flood control improvements or stormwater control improvements that are extended enlarged acquired or constructed provided that the City has developed a comprehensive plan of development for flood control or for stormwater control respectively and the improvement contributes to the objectives of the plan. For flood control improvements such plan shall be submitted to and approved by the Department of Ecology. In addition for newly constructed improvements, the City shall develop preliminary engineering studies and plans, and such plans and studies shall be filed with the District's engineer. For all projects, the City shall provide cost estimates and underlying data and shall describe the benefit provided by the improvement.

2 1 2 Pursuant to the criteria in RCW 86 15 035 and RCW 39 34 190 as modified by Resolution FCZD 2008-15 2. District funds may be expended for cooperative watershed management actions, including watershed management partnerships and other intergovernmental agreements, for the purposes of water supply water quality, and water resource and habitat protection and management, provided that Opportunity Funds expended for salmon habitat protection shall be linked to the construction of a flood or stormwater project, and provided further that all such funds shall be used for the implementation of watershed management plans, including but not limited to the following.

- a Watershed plans developed under chapter 90 82 RCW
- b Salmon recovery plans developed under chapter 77 85 RCW
- c Watershed management elements of comprehensive land use plans developed under the growth management act chapter 36 70A RCW
- d Watershed management elements of shoreline master programs developed under the shoreline management act chapter 90 58 RCW
- Nonpoint pollution action plans developed under the Puget Sound water quality management planning authorities of chapter 90 71 RCW and chapter 400-12 WAC
- f Other comprehensive management plans addressing watershed health at a WRIA level or sub-WRIA basin drainage level
- g Coordinated water system plans under chapter 70 116 RCW and similar regional plans for water supply and
- h Any combination of the foregoing plans in an integrated watershed management plan

The authority to use funds for implementation of these plans is broadly constitued to include

- l Coordination and oversight of watershed management plan implementation including funding a watershed management partnership for this purpose

Sub-Regional Opportunity Fund Project Application KingCounty
Application Due Date December 8 2008
Jurisdiction City of Redmond
 Do you wish to forego the receipt of your Opportunity Fund allocation this year allowing it to accrue for a future year? Yes No
 Would you prefer to apply your Opportunity Funds toward an existing project on the District's 6-year CIP? Yes No If Yes please provide the name of the project
If you said Yes to either (1) or (2) above you do not need to complete the remainder of this form
3) Proposed project or activity name Lower Bear Creek Rehabilitation
and location Lower Bear Creek from the mouth (Sammamish River) upstream ~3 300 feet Located between SR 520 and Redmond Town Center
4) Description of the flooding stormwater or linked watershed management problem that this project or
activity will address (1500 character maximum)
The existing channel in the lower reach of Bear Creek is confined to a narrow steep sided rock fined ditch configuration created
when the Army Corps dredged the lower reach of the creek in the 1960's. A high bench near Redmond Town Center restricts the
channel to the north and the channel will be further resticted when SR 520 is widehed on the south side of the creek. Existing conditions restict channel capacity and degrade in stream habitat. FEMA maps will be revised in conjunction with the project
5) Description of how the proposed activity will address the problem outlined in number 2 (1500 character
maximum)
The proposed channel will consist of a broader floodplain and seasonally flooded wetland areas. Channel capacity will be
improved through remvoal of fill soils, and hydraulic diversity will be enhanced by adding a meandering channel and creating a
pool/riffle profile The proposal will continue a project built upstream in 1999
